DESCRIPTION

It is a beautiful villa on the hill of Miata, within a small residential area of extra luxury villas, built by the most famous architects in the world. The villa is a few minutes from all services and at the same time immersed in the quiet, in the granitic rocks and the thousand colors of Gallura. Villa's terrace has a concept of the boat, you feel the excitement of being in the middle of the sea or fly in short, a combination of sea and green, which translates into a true work of art. The particularity of Villa are the view of priceless beauty that spans for 360°, the granite rocks eroded and sculpted by the wind - shapes of animals such as turtle, lizard, the face of a lion, a woodpecker are all left to the imagination. The swimming pool with sea water is set among the granite sculptures that form a musical key, creeps silently from the outside to the inside, completely covered in marble, with large relaxation areas, 25 meters long, is equipped with a counter and heated. The internal and external flooring was made of strips of antique marble straw color of 20-40-80-110 cm wide and close to the center of the room picking up the positive energy around the fireplace, which is also made of marble orobico (roots and fossil shells). The living room of the Villa has big spaces. The heart of this environment converges towards the center, where a fireplace in steel and glass, conveys the external energy sources. Like two Juniorsuites the master bedroom is full of charm and elegance. It is accessed directly from the living room through a living room-office, large walk-in wardrobe. The 'runner' with two sinks and a corner cupboard, the color of the marble orobico with its nuances give uniformity to the decor of the environment, the runner separates the spacious emotional shower and toilet. The second full bath with elegant hydro Jacuzzi is located on the right side of the room. The spacious owners suite with double Latvian Frau, king size bed, breakfast nook, plus a large outdoor area with private sea view on 'La Maddalena Archipelago. La Torre - guest house owes its name to the isolated form and position, the highest, as a fortification with bedroom and bathroom. "Stazzo" is a typical rural settlement, indicates the peasant farm and the house where the owner lives. It is composed by two bedrooms with bathrooms. "Suite Lion Valley"- the pearl arav tissue of the twin beds combined with the

modern books. A conference table for 10-12 people. The space is located on the ground floor of the manor house, with sea view. The kitchen of 40 sqm. with large terrace next to the winds, paved with the same marble interior, barbecue.

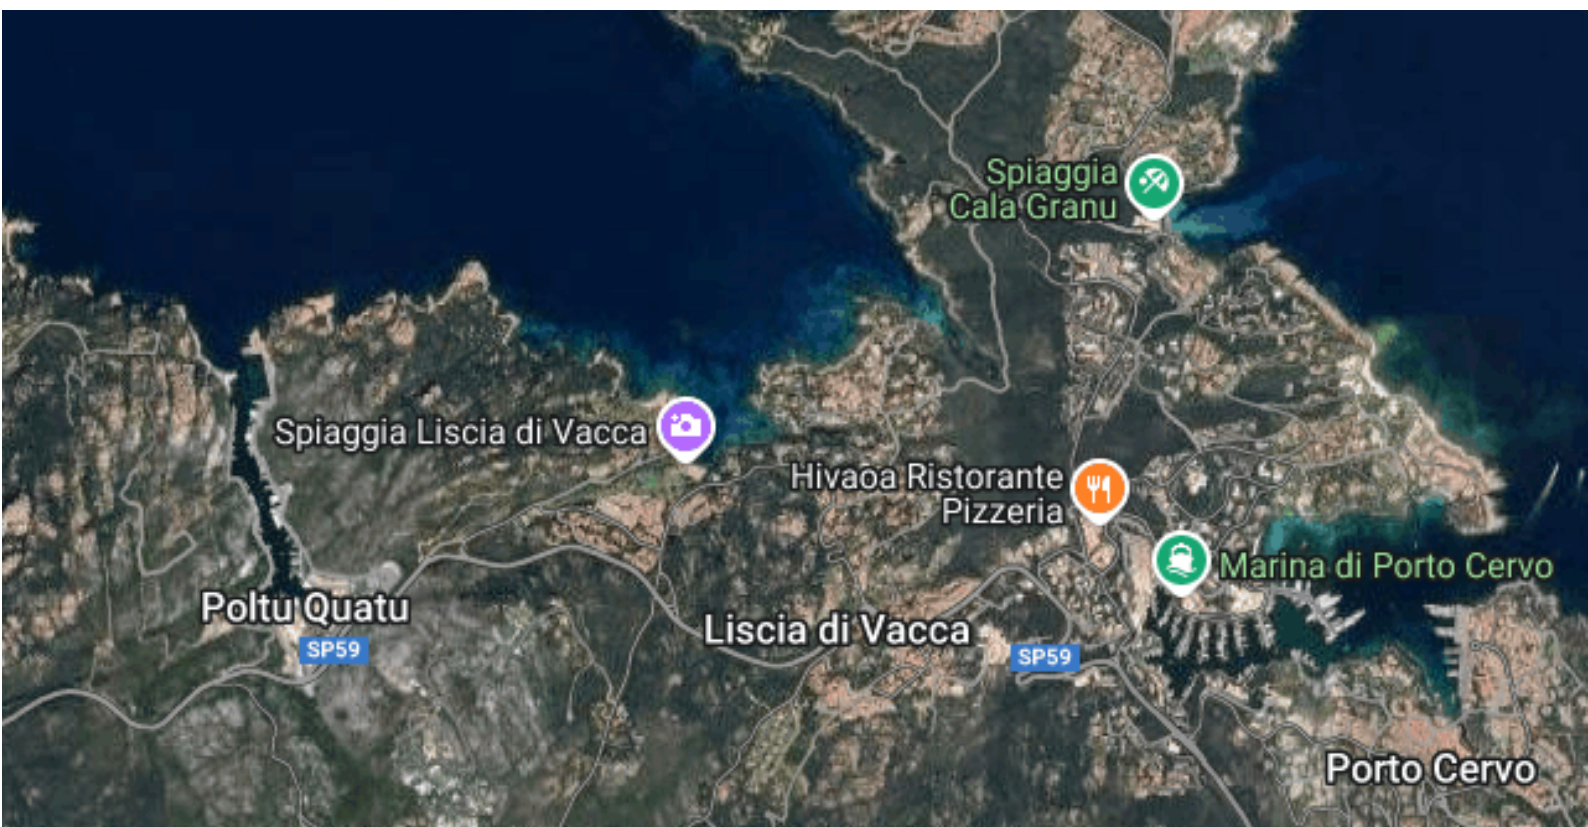

SATELLITE VIEW OF THE AREA
